

the joys of Spring Cleaning....

Call us crazy, but we like spring cleaning. In fact, we like it so much, we're offering you a 10% discount if you'll let us do it for you. Bring in your system before the first day of summer, and we'll clean the case, inside and out, defrag the hard drive, run virus, spyware, and adware scans*, and get rid of all your old temporary files that are just taking up space.

*you will be notified of the time estimated for removing viruses, trojans, spyware and/or adware.
